INTRODUCTION

The compiler of this set of Marriages Recorded in the New Bedford Mercury was George Randall, a local genealogist. The set was purchased, along with a set of Deaths Recorded in the New Bedford Mercury, by the New Bedford Free Public Library on August 14th, 1915.

The New Bedford Mercury began publication on August 7th 1807 and continued publication until 1942. Randall went as far as 1874 in his compilation, which was collected into two parts, 1807 to 1845 and 1845 to 1874. Part one was bound in two volumes, part two in three. Because of the thickness of the volumes each was split in half when the set was reproduced.

The compilation is in alphabetical order but many surnames have been misplaced in the sequence. Entries that were missed appear in an addendum of "misplaced" entries at the end of the last volume. In order to help those consulting this compilation, we have placed at the front of each volume a list of all the surnames in the volume in the order in which they occur. Those surnames with additional entries in the "misplaced" section have been underlined in red or added in red.

During the Summer of 1986 the set of marriages from 1845 to 1874 was reproduced on archival quality, acid-free paper and the lists of surnames were compiled. For their participation in this project we would like to thank Elaine Silva, Donna Wingrove and Maribel Da Costa.

Paul Cyr, Curator
September 19th, 1986
